When choosing a sealer/coating, several factors to take into consideration are:

- UV exposure
- Vapor transmission rate
- Abrasion resistance
- Chemical resistance
- Frequency of maintenance
- Smoothness of surface

Key:

-  Denotes Greener
- ⊕ We highly recommend application by a professional.
- ◆ Self-priming on exterior jobs only.
- * Interior jobs prime with WE 40.
Exterior jobs prime with WU 60.
